

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INTRODUCTORY.

THE edition of the New Bedford Directory now completed, is the sixth that has been published since the commencement of the work, and the first since the City organization.

It were in vain to hope, amidst the unceasing changes of so large a portion of our community, that perfect accuracy could be obtained at any time, but when to these are added the removals and changes caused by one of the most remarkable emigrations upon record, the Directory becomes necessarily, yet more imperfect.

The information collected in the first instance by personal inquiry at *every house in the City*, was collated with all the lists and other means of information known to the compilers. It was then tested by inquiry at *every store and place of business in the City*, and submitted to the examination of as many of the citizens as practicable.

In presenting it to the public, the compilers would embrace the opportunity to return their sincere thanks to those who, during its progress, have so kindly aided their inquiries, and encouraged their efforts.

The Statistical Information with reference to the Whaling business usually published in this Directory, being a transcript of the tables published in the Whalemens' Shipping List, by Henry Lindsey, Esq., and consequently accessible to all in the pages of that Journal, has been omitted in this edition.

The information with reference to the Societies and Incorporated Institutions, was obtained from their respective officers.

The directory of the Streets, has been corrected from the official record.

The Advertising Directory is collected from good substantial money-paying advertisers, and to it the attention of the public is respectfully invited.

NEW BEDFORD.

THE Indian name of New Bedford was *Acchusnutt*, or *Acushnet*. It was incorporated as a town in 1787, previous to which it formed a part of the town of Dartmouth, but at what time and by whom the first settlement was commenced does not distinctly appear. It is supposed, however, that the Friends or Quakers, were the first white inhabitants. The first settled Minister appears to have been Samuel Hunt, who died about the year 1735; it is supposed he was ordained here [*Acushnet Village*] about the year 1700.

The villages of New Bedford and Fairhaven, were both settled about the year 1764. The first house in New Bedford village was built by John Louden, of Pembroke. The land upon which the city now stands, was owned by a Joseph Russell, which name (Russell) being the family name of the Duke of Bedford, Joseph Rotch, one of the principal purchasers and settlers, declared that the place where they built, should go by the name of Bedford, to which the word New was afterwards prefixed.

During the Revolutionary War, New Bedford was a place of resort for American Privateers. In order to destroy them, 4000 British troops, under Gen. Gray, landed upon Clark's Point, and marching to the town burnt houses, wharves, shipping and merchandize to the amount of \$323,266.—[*Barber's Historical Collections, Massachusetts*, pp. 126, 127.

New Bedford received a City Charter, March 18, 1847, and at the ensuing election Abraham H. Howland was elected Mayor, to which office he has been re-chosen at each subsequent election.

The population of New Bedford in 1790, was 700, in 1820 it was 3,947, in 1830 it was 7,592, in 1840 it was 12,585, and in 1847 it was 16,031.

Agent of the Society and Pastor of the Bethel Church, Moses Howe.

The New Bedford Port Society has for its object the moral improvement of seamen. It operates directly through its Agent, Moses Howe, who is also Pastor of the Bethel Church, maintained by the Society.

The Meetings at the Bethel are well attended, and manifest a decidedly increasing interest in the cause of religion, and in the prosperity and well being of the Sailor.

The Pastor of the Bethel is indefatigable in the performance of his duties. He has kept record of the crews of many ships sailing from this port; he has attended to the settlement of their voyages for seamen inexperienced in such matters; he has visited the sick, cared for the wanderer, reproved the erring and encouraged the repentant, and has distributed on board of ships sailing to all parts of the world Bibles, Tracts, Testaments, &c., which have without doubt borne fruit in places that had else seemed barren of all good.

The object of this society is to discover the real condition of the poor, to bring them within reach of intellectual, moral and religious improvement, and to assist them in other ways. For this purpose the town is

divided into ten districts, one to each director, who inquires into all the cases within her limits. Thus it is hoped that imposture may be detected, and real suffering be relieved.
